

Know your Vaccine Rights

01

You do NOT need to provide insurance or a SSN to receive a COVID-19 vaccine.

You cannot be denied a vaccine if you don't have insurance or a Social Security number (SSN). Contact a local community-based organization or your health department if you need more information on state ID requirements.

02

The COVID-19 vaccine is FREE for everyone in the United States.

Providers cannot charge you for the vaccine, nor charge you for any administration fees, copays, or coinsurance.

For further assistance, contact your local community-based organization. If you need support getting connected to one, then please email us at covid@apiahf.org.

Know the facts:

Getting Vaccinated

Do:

- Get vaccinated! It is important in order to protect your family and fellow community members.
- You should get vaccinated even if you already had COVID-19, unless you are currently experiencing symptoms.
- Continue wearing a mask and practicing social distancing, even after receiving your first dose.

Don't:

- Don't worry about the cost. All vaccines are FREE!
- Don't let your immigration status prevent you from getting vaccinated. You do not need to explain your status to the vaccine provider. Every individual who needs a vaccine can get one.
- Don't be misinformed about vaccine safety. COVID-19 vaccines are safe and effective.

For further assistance, contact your local community-based organization.

If you need support getting connected to one, then please email us at covid@apiahf.org.
